

Title: Website PDF Testing Document

Author: Vishal Kumar

Date: 28th August 2024

Introduction:

This PDF document is created to test the PDF viewing and downloading functionality on the website. The goal is to ensure that users can view and download the PDF without any issues.

Content:

1. Section 1: Introduction to Testing

- Testing is a crucial step in the development process. It helps in identifying and fixing issues before the product is released to the users.
- This document will be used to verify that the PDF viewer on the website is functioning correctly.

2. Section 2: How to View PDF

- Ensure that the PDF opens directly in the browser without requiring any additional plugins or software.
- Check that all text and images are displayed correctly and are legible.

3. Section 3: Downloading PDF

- Test the download button to make sure the PDF is downloaded with the correct file name and format.
- Verify that the downloaded file opens correctly in different PDF readers.

Conclusion:

If all the steps mentioned above are working as expected, then the PDF viewing and downloading functionality on the website is considered to be working correctly.
